

Career Objective

Aspire to secure a position in a reputed organisation to enhance my technical and professional skills and to contribute to the growth of the company with my dynamic skills.

Educational Qualification

Course	College / School	CPI / Percentage	Year of Passing
B.E. (Computer Engineering)	Darshan Institute of Engineering & Technology	8.76	2022
HSC	P.V Modi School	71.69	2018
SSC	V.J Modi School	76.66	2016

Technical Skills

- **Web:** ASP.NET, HTML, CSS, JavaScript, Bootstrap, Angular
- **Programming Skills:** Java, Python, C, SQL, C#
- **Google Tools:** Docs, Forms, Slides
- **Planning:** Task-Management, Analysis, Problem-Solving Skills
- **Software:** Visual Studio Code, Visual Studio, PyCharm, POSTMAN, GitHub, Eclipse, MSSQL, Jupiter

Projects

1. Title : Truck Transport Management Services

Technology : ASP.NET Webforms

Description : It is a dynamic web application in which we can perform CRUD operations. This project analyses data from graphs and charts. The functionality includes generating the list city with maximum order, analyse the history of cost and expense.

2. Title : 3 Tier Generator Software

Technology : Python

Description : This Software is developed in python to make web development easier. The user only needs to enter their server & database name, and within fraction of seconds, they will get all tables Entity File, Business Access File and Database Layer File with all basic operations inside App_Code folder in their system. Software is useful for ASP.NET web development in three-tier architecture websites.
